

Energy P.O.D.™  
5000W (back) / 8000W (front)

Energy P.O.D.™  
8500W Clean, reliable power

**POWER**

**ON DEMAND**

**when you need it - where you need it**

**indoor / outdoor  
no gas or diesel required  
no noise, no emissions  
no moving parts  
no energy loss to -40°**

**the revolutionary  
Energy P.O.D.™ by:**

**Prince George, British Columbia, Canada • Alaska, USA**

- The Energy P.O.D.™ utilizes a sealed VRLA battery with absorbed glass mat technology (AGM) with gas recombination greater than 99% - the same technology the US utilizes in its Stealth Bomber - to deliver astonishing power on demand.
- No gasoline, diesel, or oil required - just charge it up! Allows for multiple ways to charge the batteries. With the addition of other charging sources such as solar, wind, vehicle charging systems, and a 100 amp panel Emergency Automated Backup Switch for home / cottage / office, the battery power system can replenish itself and allow for extended outages.
- Battery never needs watering; minimal maintenance.
- No moving parts - except for the wheels, of course.
- No harmful carbon emissions. Use the Energy P.O.D.™ inside or out.
- No noise - 0.05dB at 7 feet (10dB is the sound of rustling leaves)
- 2500W / 5000W and 8000W units deliver more than enough power anywhere, anytime from small projects to construction work sites.
- Performs without loss of energy up to -40°.
- Safety recognized U.L. 924. Meets and exceeds all environmental laws; meets EPA and CSA standards.
- Made in Canada, 1 year warranty. 100% recyclable.

**ENERGY P.O.D.™  
POWER ON DEMAND**

**THE GENERATOR THAT REQUIRES  
NO FUEL AND RUNS NOISELESSLY  
WITHOUT EMISSIONS**

Canadian designed for:

- indoor / outdoor use
- construction job sites
- cabins, campsites, campers, hunting / fishing camps,
- marine, farms, field operations, silviculture, acreage,
- business and residential emergency power backup,
- long haul truck drivers,
- pick-up mounted AC power

Authorized distributor for British Columbia, Canada  
and Alaska USA:

**Energy P.O.D.™**

The power workhorse wherever you need it, whenever you need it!  
 Reliable and lasting power from 2500W, 20 cont. amp to 8000W, 74 cont. amp!  
 There is nothing like it on the market!

## ENERGY P.O.D.™ 2500W 100 (AH) & 127 (AH) SERIES

### FEATURES AND BENEFITS

- 2500 watts running, 5000 watts peak
- 20.83 continuous amp
- Volt meter & amp meter
- Meets and exceeds all environmental laws
- 1 year limited warranty
- No emissions or fuel
- Charging unit included

### MODELS AND RATINGS

- AC rated output 2.5kw / 2500W
- AC max output 5kw / 5000W
- AC voltage 120V / 120V
- AC frequency 60Hz
- AC V rated amperage 20.83A / 50A
- DC voltage 12V

### WEIGHT AND SIZE

- Weight 110 lbs to 140 lbs
- Size 15" long, 14.5" wide, 18" high

## ENERGY P.O.D.™ 5000W 200 (AH) & 254 (AH) SERIES

### FEATURES AND BENEFITS

- 5000 watts running, 10000 watts peak
- 42.3 continuous amp
- Volt meter & amp meter
- Meets and exceeds all environmental laws
- 1 year limited warranty
- No emissions or fuel
- Charging unit included

### MODELS AND RATINGS

- AC rated output 5kw / 5000W
- AC max output 10kw / 10000W
- AC voltage 120V / 120V
- AC frequency 60Hz
- AC V rated amperage 42.3A / 50A
- DC voltage 12V

### WEIGHT AND SIZE

- Weight 260 lbs to 283 lbs
- Size 30" long, 14.5" wide, 18" high

## ENERGY P.O.D.™ 8000W 300 (AH) & 381 (AH) SERIES

### FEATURES AND BENEFITS

- 8000 watts running, 16000 watts peak
- 74.3 continuous amp
- Volt meter & amp meter
- Meets and exceeds all environmental laws
- 1 year limited warranty
- No emissions or fuel
- Charging unit included

### MODELS AND RATINGS

- AC rated output 8kw / 8000W
- AC max output 16kw / 16000W
- AC voltage 120V / 120V
- AC frequency 60Hz
- AC V rated amperage 74.34A / 50A
- DC voltage 12V

### WEIGHT AND SIZE

- Weight 304 lbs to 374 lbs
- Size 30" long, 20" wide, 18" high
